

In late December 2017, a couple in Iowa was checking on their 50 beehives when they discovered a tragic scene. The hives had been overturned and hacked apart, and the equipment had been thrown out of the shed and smashed. This destruction caused the death of about half a million bees and approximately \$60,000 in property damage. Nearly three weeks later, police arrested two boys (12 and 13 years old) who, allegedly, were responsible for the damage. The charges against them include criminal mischief, burglary, and offenses to an agricultural animal facility. Since they are still minors, they will be charged in juvenile court where they face up to 10 years in prison and fines of up to \$10,000 if convicted. Police officials explained that the investigation is still in progress, but the evidence so far overwhelmingly speaks to the guilt of the suspects.

A couple in Iowa, in December 2017, checked on their 50 beehives and found them smashed and overturned. There were enormous amounts of money lost through death of the bees and damage to property. Two boys, aged 12 and 13, are suspected to be the culprits, although investigations are still ongoing. The boys are minors, and if convicted, will face up to 10 years in Juvenile Court.

A couple from Iowa had a bee-farm. Two middle school boys went and destroyed their beehives.

In late December of 2017, a couple in Iowa discovered that their 50 beehives had been hacked apart and smashed, and equipment in their shed vandalized and thrown out. The incident caused the death of over half a million bees and around \$60,000 in damages. Police recently arrested two boys, aged 12 and 13 years old, who are allegedly responsible for the crime. Because they are minors, they face a fine of up to \$10,000 each and up to 10 years in juvenile detention. No charges have been officially pressed yet, but evidence points to them being responsible for the crime.

Late last year, there was a couple whose beehives were destroyed and garage was vandalized. Over half a million of the bees were killed. Two young teenage boys were arrested in connection to this crime, as evidence points heavily towards them, but they have not yet been formally charged with the crime.
